Igor Pankin

Finance Systems & ERP Product Lead · Oracle ERP Cloud / EBS · SaaS/PaaS · P&L · Pre-sales

Limassol, Cyprus · igor@igorp.com · linkedin.com/in/igorpankin · cv.igorp.com

PROFILE

Finance-systems and ERP leader with 20 years in Oracle E-Business Suite and Oracle ERP Cloud. I run delivery and P&L of financial ERP programs: implementation, custom development, SaaS/PaaS extensions and integrations with finance, supply-chain and procurement systems, and I take part in pre-sales. 16 years in one group, from consultant to product and delivery lead. Based in Limassol.

KEY RESULTS

- 6 projects 2014–2025: over EUR 4.5M revenue and about EUR 1.4M profit, ROI above 30% (portfolio totals).
- Oracle ERP Cloud implementation for a major enterprise together with its international team and a global integrator; later led the migration of a large enterprise's ERP platform (applications, integrations, reports, data).
- SaaS service built from scratch as an Oracle ERP extension; official Oracle localisation solution for Russia as an Oracle Platinum partner.
- Long-term customer relationships: positive delivery feedback led to multi-year retention (10+ years).
- AI-agent automation for finance routines in own projects (Python, n8n, agent frameworks): github.com/ExiosV.

EXPERIENCE

Softline Group (Borlas Group) · 2010 – present · Employer entity: Borlas Group, a Softline Group company since 2023

Project Delivery Manager (formal title: Lead Consultant) 2021 – Present

- Delivered a portfolio of 6 financial ERP projects and in-house products (2014–2025): over EUR 4.5M revenue, about EUR 1.4M profit, ROI above 30%; own scope, budget, team and P&L.
- Led the migration of a large enterprise's financial ERP platform (applications, integrations, reports, data) with no interruption to financial close; implemented financial and tax modules for an industrial customer.
- Supported sales of large telecom, chemicals, energy and mining deals (2025–2026): proposals, estimates, sales materials.
- Automated IFRS and management P&L reporting for group finance (2026).

Project & Product Manager (formal title: Senior Consultant) 2018 – 2021

- Delivered an Oracle ERP Cloud implementation for a major enterprise customer alongside its international head-office team and a global integrator.
- Built a SaaS product from scratch as an extension of Oracle ERP (statutory reporting) and took it to customers.
- Developed and distributed the official Oracle localisation solution for Russia as an Oracle Platinum partner.
- Ran a multi-year PaaS-based support contract for a large customer.

Senior Consultant 2013 – 2018

- Owned functional design and development of financial modules, reports and localisation features for global industrial and retail customers; kept one retail ERP customer for 10+ years.
- Delivered the Russian localisation of Oracle E-Business Suite inside customers' international teams (work in English, on-site at customer headquarters, with customers' outsourcing contractors).

Software Consultant (part of IBS Group until 2012) 2010 – 2013

- Delivered Treasury, payments and cash-management applications for energy, chemicals and utilities customers, with business process improvement.

Junior Analyst / Consultant, GMCS 2006 – 2009

- Took part in the Oracle E-Business Suite financials implementation (GL, CE, TR, AP) for a state telecom holding, one of the biggest projects in Russia; went live on time.
- Wrote functional designs and tested the modules; trained junior consultants and key users.
